

**The Circuit des Remparts 2023 in Angoulême, France,  
will celebrate the 50<sup>th</sup> anniversary of the Lancia Stratos  
September 15-17, 2023**

Born in 1939 in Angoulême, resuscitated in 1978 and relaunched in 1983 following the re-registration of the circuit, the Circuit des Remparts has been an uncontested classic since its very first edition. After more than eighty years and fifty editions, this event remains a myth despite its tumultuous history. The event has evolved and proved its capacity for innovation and reinvention while keeping its initial soul and its unchanged layout of the track since 1939. Every year in September, the Circuit des Remparts gathers hundreds of vintage cars. These cars compete on a closed circuit, meet during rallies, or are exhibited at a Concours d'Elégance and a Concours d'Etat. Over three days, thousands of spectators can enjoy the festival, admire the show and discover the exhibitions.

This mythical race will take place this year from **September 15-17, 2023** and will pay special attention to a myth of competitive racing: the Lancia Stratos, queen of the rallies, whose production began 50 years ago.

On Sunday 17, a demonstration grid dedicated to Stratos will take place in the presence of Bernard Darniche, one of the best performers in the non-official Stratos.

**Join us in and be part of the Lancia Stratos gathering held in Angoulême!**
